Commissioner of Patents

The reply filed on September 23, 2003, is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): In the response filed September 23, 2003, Applicant has amended all pending claims to be directed to a different invention than the originally presented invention. As amended, claims 1, 2, 4-10, 12-15, 19 and 20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: In response to the prior Office Action filed on August 27, 2002, Applicant amended the claims to read on compounds targeted to SEQ ID NO:3 and, in essence, elected SEQ ID NO:3. As amended, the claims are directed to compounds targeted to multiple short sequences, the examination of which would require a separate and distinct search from that of the originally elected claims to compounds targeted to SEQ ID NO:3. Compounds targeted to each of these sequences is considered to be structurally independent and distinct even though they each target SEQ ID NO:3, because compounds targeted to each of these sequences has a unique nucleotide sequence, distinct from the full length SEQ ID NO:3 and distinct from each other and each targets a particular specific region of the gene, distinct from each other. A new, separate and distinct search would be required for each of these target regions, separate from the search of SEQ ID NO:3 and each other and a search of all the target regions claimed presents an undue burden on the Patent and Trademark Office to search and examine all of the recited regions. Applicant has received an action on the merits for the originally elected invention, compounds targeted to SEQ ID NO:3, and all claims pending are drawn to a non-elected invention, this response is not considered to be responsive to the prior Office Action. See 37 CFR 1.111.

Since the reply filed on June 11, 2003 appears to be *bona fide*, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
